Invitation

Dear Colleagues,

National Institute of Immunohaematology (NIIH), a premier Research Institute under Indian Council of Medical Research, located at KEM Hospital Campus in Mumbai was established in 1957 as Blood Group Reference Centre (BGRC). The Institute is celebrating its Diamond Jubilee from 15th to 17th of February 2017 at Nehru Center, Mumbai.

To mark this occasion, an International Conference with the theme:

“Revolution of Laboratory Medicine in Modern Biology”

is being organized. This conference will have guest lectures, oration, symposia, panel discussions, interactive sessions and poster presentations broadly pertaining to laboratory diagnosis of common day-to-day problems in Immunohematology as well as state-of-the-art recent advances in these fields.

On behalf of the organizing committee, it is our pleasure and privilege to invite you to participate in this conference. We are sure this will be a memorable event for all and we hope you enjoy and experience the exciting scientific program.

We look forward to welcome you in Mumbai in February 2017.

With warm regards.

About Mumbai city
Explore the city that never sleeps

Mumbai is in all ways a mega-city driven by power, wealth, glamour and fame which attracts people to give shape to their dreams and aspirations. But it is also a city with strong historical links, wonderful British architecture, museums, beaches, places of worship, and above all, a true galaxy of stars where Bollywood reigns supreme.

A city of diverse cultures and a melting pot of commerce, industry, entertainment, enterprise, and politics. Its history has witnessed several shifts in power, and the seven islands changed hands frequently.

The seven islands that came to constitute Mumbai were earlier home to communities of fishing colonies. For centuries, the islands were under the control of successive indigenous empires before being ceded to the Portuguese and subsequently to the British East India Company. During the mid-18th century, Bombay was reshaped by the Hornby Vellard Project, which undertook reclamation of the area between the seven islands from the sea. Along with construction of major roads and railways, the reclamation project, completed in 1845, transformed Bombay into a major seaport on the Arabian Sea.

Bombay in the 19th century was characterised by economic and educational development. During the early 20th century it became a strong base for the Indian independence movement. Upon India’s independence in 1947 the city was incorporated into Bombay State. In 1960, following the Samyukta Maharashtra movement, a new state of Maharashtra was created with Bombay as the capital. The city was renamed Mumbai in 1996. And in this short period of development, the city has transformed into the commercial and entertainment capital of India.

Mumbai houses important financial institutions such as the Reserve Bank of India, the Bombay Stock Exchange, the National Stock Exchange of India, the SEBI and the corporate headquarters of numerous Indian companies and multinational corporations. It is also home to some of India’s premier scientific and nuclear institutes like BARC, NPCL, IREL, TIFR, ICMR, AERB, AECl, and the Department of Atomic Energy. And of course there is the huge Hindi film and television industry that has given it its starry appeal.
The Nehru Centre was conceived in 1972, not as a mute memorial, but as living testament and monument of faith in Jawaharlal Nehru’s vision of man, his compassion for humanity, his concern for human beings and his undying passion to lift them to the greatest and highest purpose. The planetarium was only the first phase of an ambitious memorial that truly reflects the awe inspiring spirit of a man who meant so much to three generations of Indians and which continues to inspire the present generation.

Nehru Planetarium: A centre for scientific study of astronomy and for meeting of scientists and scholars for discussions and lectures.

Discovery of India: Discovery of India Exposition, a permanent unique exposition, covering every aspect of artistic, intellectual and philosophical attainment of India through ages, is depicted in 14 galleries which seeks to determine, true identity of the country.

Culture Wing: With a view to encourage young performing artists, the Culture Wing organizes regular cultural programmes in all branches of performing arts, like dance, drama, music, etc.

Art Gallery: The Nehru Centre Art Gallery is dedicated to the promotion of young talent and provides a platform for them to exhibit their work along with that of eminent artists.
